EXPERIENCE

Software Developer Intern, Workflow Tools Team — Talview, Bengaluru Nov 2025 – Jun 2026

- Developed optimized, secure, and scalable React.js and TypeScript features for enterprise workflow management software, reducing UI rendering time by 30% through performance optimization, memoization, and lazy loading.
- Architected a reusable component library with Storybook and Tailwind CSS adopted across 5+ product modules, accelerating feature delivery velocity and improving UI consistency.
- Integrated GraphQL APIs via Hasura for real-time data fetching and implemented fault-tolerant workflow orchestration using the Temporal TypeScript SDK.
- Built and deployed AWS Lambda serverless functions for event-driven backend processing; authored unit, integration, and end-to-end test suites with Jest, Vitest, and Cypress to improve code coverage.
- Led root cause analysis on regression defects and collaborated cross-functionally in an Agile/Scrum environment, participating in peer code reviews and maintaining technical design and test documentation.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, Java, C, C++, SQL, HTML5

Frontend: React.js, Redux Toolkit, Redux Saga, RXDB, Tailwind CSS, CSS3, Bootstrap, Storybook, Responsive Design, UI Components

Backend & APIs: Node.js, Express.js, GraphQL, Hasura, REST APIs, AWS Lambda, SAM, Temporal TypeScript SDK, Workflow Automation

Testing & Automation: Jest, Vitest, Cypress (E2E), Unit Testing, Integration Testing, Code Coverage

AI/ML & Data: Python, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Power BI, Data Analysis, Machine Learning

Databases: PostgreSQL, MySQL, MongoDB

DevOps & Tools: Git, GitHub, CI/CD Pipelines, AWS Lambda, Agile/Scrum, SDLC

Problem Solving: 500+ problems solved across LeetCode, GeeksforGeeks, and CodeChef

PROJECTS

Smart Student Management System Nov 2025 – Jan 2026

React.js, TypeScript, Redux Toolkit, GraphQL, Hasura, PostgreSQL, AWS Lambda, RXDB, Tailwind CSS

- Built a full-stack enterprise application with CRUD operations, role-based access control, and real-time data synchronization using Hasura GraphQL over PostgreSQL, including unit tests and peer-reviewed code.
- Developed a responsive, accessible React.js frontend with Redux Toolkit and RXDB for offline-first state management, and deployed serverless compute on AWS Lambda with SAM.

Blue Collar Workers Service Marketplace (MERN Stack) May 2025 – Sep 2025

Node.js, Express.js, React.js, MongoDB, REST APIs, Python, Selenium

- Engineered a scalable full-stack service marketplace with a RESTful API backend, real-time worker availability, an appointment booking system, GPS-based live tracking, and automated email notifications.
- Wrote Python and Selenium automation test scripts to validate end-to-end booking workflows, performing structured root cause analysis to track and resolve defects to production-ready quality.

Movie Data Analysis and Visualization (AI/ML) Apr 2025 – May 2025

Python, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Power BI

- Built an end-to-end data analysis and machine learning pipeline — data cleaning, preprocessing, exploratory analysis, and Scikit-learn predictive modeling — surfacing insights on ratings, genre trends, and audience preferences.
- Created interactive Power BI dashboards and Python-generated visualizations to communicate findings to non-technical stakeholders, documenting methodology, results, and model performance.

EDUCATION

B.E. in Computer Science and Engineering — PES College of Engineering, Mandya (VTU) | CGPA: 9.45 / 10 2022 – 2026

Pre-University Certificate (PUC), PCMB — Govt. PU College, Kudige | 92.33% 2020 – 2022

SSLC (10th Grade) — Morarji Desai Residential School, Kudige (KSEEB) | 91.04% 2019 – 2020

CERTIFICATIONS & ACHIEVEMENTS

- **1st Place — Coding Challenge and Analytics Arena (IEEE), PESCE Mandya:** Demonstrated strong analytical and problem-solving skills by solving advanced DSA problems and delivering data-driven insights through Python analytics and Power BI visualization.
- **2nd Place — National Level Hackathon and Code Treasure Hunt, PESCE Mandya:** Delivered an innovative full-stack solution in 24 hours, securing runner-up and reinforcing algorithmic reasoning and teamwork.
